# The Problem

The current problem faced by users has been the inability to evaluate new tokens that come to market. Many times, the users either get scammed / rug pulled due to insufficient data to analyse and compare.

# ***TOKEN MONSTER***

game changer to the world of  
cryptocurrency.

Token Monster allows users to evaluate new tokens that come to market and see real-time information like Age, Market Capital (MC) and Total Holders. It's a one stop shop that will help investors to avoid/detect scams, all centralised in one platform.

Token Monster will empower users to make more informed decisions before they buy into a new token project.
